DETAILED ACTION

The following detailed action is in response to the correspondence filed 2/26/2007.

Response to Arguments

1. Applicant's arguments, see pages 7-9, filed 2/29/2007, with respect to the fan configuration of claim 1 have been fully considered and are persuasive. The rejection of claims 1 and 3 have been withdrawn.

After careful reconsideration, and in view of the remarks presented by the Applicant's, the Examiner believes that there is a preponderance of evidence on record to show that the claimed subject matter is patentably distinct from the Chien reference (See MPEP 2142, "The ultimate determination of patentability is based on the entire record, by a preponderance of evidence, with due consideration to the persuasiveness of any arguments and any secondary evidence. In re Oetiker, 977 F.2d 1443, 24 USPQ2d 1443 (Fed. Cir. 1992). The legal standard of "a preponderance of evidence" requires the evidence to be more convincing than the evidence which is offered in opposition to it."). In the present case the Examiner finds no other evidence of teachings of the presently claimed blade configuration besides the sketch shown in Fig 3.

Allowable Subject Matter

2. Claims 1, 3-4, 6-7 are allowed.

For claims 4, 6-7 see the reasons for allowance in the action dated 10/26/2006.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1 and 3, the allowability resides in the overall structure of the device as recited in independent claim 1 and at least in part because claim 1 recites, "said plurality of blades each have an edge facing the front of the heat dissipating portion, each of the edges sloping gradually away from the heat dissipating portion as each of the edges extends in a radially outward direction from a rotating center of the impeller".

The aforementioned limitations in combination with all remaining limitations of claim 1 are believed to render said claim 1 and all claims dependent therefrom (claim 3) patentable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
